

Digital Forensic Examiner

Location: Seattle, WA

ArcherHall is growing fast. We're seeking an exceptional early-career digital forensics professional to support the growth of our Digital Forensics Division.

This individual will conduct forensic examinations of computers, networks, mobile devices, and other digital media in support of our clients' civil, criminal, or internal investigations. General duties include executing in-lab, on-site and remote collections and investigations, writing reports and declarations, and contributing to execution of new initiatives within the division.

The ideal candidate is self-motivated and thrives in a collegial team environment. This candidate will be equally comfortable:

- imaging a variety of devices
- conducting cloud collections
- troubleshooting technical issues
- speaking with attorneys and working directly with custodians
- jumping in wherever necessary to accomplish team goals

At ArcherHall we constantly seek to push the envelope and get to the next level. Our Digital Forensics Division places a strong emphasis on both internal and external training and professional development, and the ideal candidate will be willing to try new things, continuously seeking opportunities to learn, and be eager to support their colleagues through challenges.

This role is in a high-growth division with significant opportunities for advancement. Compensation is competitive and commensurate with qualifications. The company will pay a relocation bonus to candidates who currently live more than 100 miles away from Seattle.

Qualities of the ideal candidate:

- Dependable. High level of personal accountability and takes responsibilities seriously.
- Meticulous and conscientious. Understands how their work impacts others, and strives to do an exceptional job for the team and the client.
- Low ego. Not above taking on any task if it's necessary for the success of the team.
- Driven. Excited about being part of a fast-growth company and building something great.

Qualifications:

- Bachelor's degree in digital forensics or related field.
- 1+ years of direct experience in digital forensics.

To apply, submit your resume to hire@archerhall.com. Please reference the job title in your subject line.
